I, C. W. PERRY, a citizen of the United States, over the age of twenty-one years, residing at Las Vegas, Nevada, being first duly sworn, depose and say: That the following facts concerning the water situation covering the parcel of land as shown on the accompanying map are true and correct.

At the time this well was drilled in December, 1928, I held a mortgage on the property as indicated on the map, and in order to enhance the value of the property and make it more desirable for use as an Automobile camp ground and service station, I made a further extension to the mortgage which I held and made an additional loan on the property consisting of the cost of drilling the well. The well location was indicated to me by the owner of the property and at that time the owner stated that this location was within the confines of the description of the property, as it stands of record in the Clark County, Nevada, Records. Subsequent surveys of the property show that the well is located outside of the property lines. Since the time of drilling, the water has been used entirely on the property shown on the map for irrigation and domestic uses in connection with operating an auto camp. Subsequent events have also made it necessary for me to foreclose on the mortgage, and I now hold the property under a Certificate of Sale on Foreclosure, issued by the Sheriff of Clark County, Nevada, on November 17, 1932. While there is six months from this date in which the previous owner has the right of redemption, it is doubtful if he will redeem it, since the mortgage is in the sum of \$5544.08, against the property.

In order to protect my interests, I am making this application to appropriate water for use on this land and also to hold the right of way for pipe lines and ditches on adjoining land from the well to the boundary of my property.

Further affiant sayeth not.
